East End BESS

TotalEnergies H₂
a company owned by TotalEnergies and eren

Community Benefits

TE H2 are committed to working with the local community and providing benefits that work for all.

TE H2 places meaningful and inclusive engagement with the local community at the heart of each project, as we know that community input is crucial to a project's success.

We will engage with the local community and key stakeholders at every step of the East End BESS project, meaning that you will have multiple opportunities to have your say and stay up to date as the project progresses.

As a part of our committment, we will ensure:

- Your feedback is heard and explained how it is being considered.
- Provide accurate and timely information.
- Provide multiple avenues to stay up to date, including community newsletters, the East End BESS project website, and 1800 number.
- You have multiple opportunities to meet the project development team and learn about the project.

TE H2 will host drop-in sessions and local community pop-ups in and around the Bracewell and Mount Larcom areas at each stage of the project development. If you are unable to make it to an in-person session, or would like to chat about the project at any point, you can contact the project's development team via **1800 975 049** or **eastendbess@te-h2.com**

Local jobs

The East End BESS project is expected to generate 150-200 jobs during construction, and 6-10 jobs during operation. The proposed project will not only create direct employment opportunities during construction, but also through increased demand for local products, materials, and services.

At this stage, construction is anticipated to commence at the end of 2027. For more information on how to register your interest in jobs, skills, and services during construction and operation, visit the project website.

Local benefits

TE H2 will have a Community Benefit Agreement with Gladstone Regional Council as a part of the East End BESS project.
